

# STEM Artifact Reflection

## West Adams STEM Academy Pathway Outcomes

-  **Critical Thinker** – Students pose and solve complex problems by utilizing content knowledge, making connections, and applying scientific methods.
-  **Collaborator** – Students are constructive leaders who plan and execute projects with team members and industry partners; ideas and progress are communicated through the use of information technology.
-  **Creator** – Students use existing knowledge and a creative approach to identify, design, and implement solutions to real-world problems.

**Student Name:** \_\_\_\_\_ **Advisory Teacher:** \_\_\_\_\_

**Content Area:** \_\_\_\_\_ **Period** \_\_\_\_\_

**Instructor:** \_\_\_\_\_ **Assignment Title:** \_\_\_\_\_

### Describe the Artifact - Paragraph 1

**What did you create/do? How did you create/do it? What was your role in creating this artifact (if it was a group project)?**

-  **Introduce artifact using specific details**
-  **Create a mental picture of what you did in class to the reader**
